River Valley Regional Work Program 2015-2019

Natural Resources

Vision Statement

The RVRC will not only promote the protection of natural resources within the Region by encouraging sustainable development practices, but will also work to educate local governments and citizens on the importance of protecting natural resources within individual communities, and the Region as a whole.

Guiding Principles

NR. 1	Adopt appropriate Part V. Environmental Ordinances
NR. 2	Work with local planning commissions, Georgia Trust, DOT, SHPO, and private property owners to designate scenic byways.
NR. 3	Educate local governments to ensure soil erosion, sedimentation and pollution control measures and practices conform to the minimum requirements outlined by the Georgia Soil and Water Conservation Service.
NR. 4	Promote adopt-a-stream activities on all streams not meeting water quality standards
NR. 5	Support and promote funding for the study and protection of the region's surface and groundwater resources.
NR. 6	Participate in the National Flood Insurance Program
NR. 7	Celebrate the region's agricultural heritage by continuing economic assistance efforts to rejuvenate agricultural industries within the region.
NR. 8	Work with the federal, state, regional, county and city agencies to conserve and enhance our valuable water resources as an economic, recreational and natural asset.

Activity	Category	Time Frame	Responsible Party(ies) and Partners	Cost	Funding Source(s)	Guiding Principles	Issues / Opportunities Addressed	Performance Standard(s) Addressed	Accomplishments CY 2014
1. Educate local elected officials, industries, developers, youth, and the public on the importance of natural resource protection, including scenic views, by utilizing brochures, maps, nature trails, and/or outdoor learning centers.	Planning	2015-2019	RVRC Local Gov'ts DCA DNR EPD GDEcD	\$20,000	Member Dues Local Gov'ts DCA DNR EPD GDEcD	NR.2	CF.I.1 CF.I.9 I.I.1- I.I.2 ED.O.9 I.O.5 LU.O.10 T.O.3 LU.I.2- LU.I.3 LU.O.1	NCRE.15 NCRE.16	COMPLETED activity for the year; this is an ongoing effort.
2. Promote the development of Keep America Beautiful affiliates and regular "Clean-up" campaigns in each county.	Review	2015-2019	Local Gov'ts KAB EPD	\$15,000	Local Gov'ts KAB EPD	NR.3 NR.4	LU.I.1 LU.I.3	L1M.4 NCRE.2 NCRE.3 NCRE.15 NCRE.16	COMPLETED activity for the year; this is an ongoing effort.
3. Promote safe disposal of potential hazardous materials and encourage recycling activities within the Region.	Review	2015-2019	Local Gov'ts KAB EPD	\$15,000	Local Gov'ts KAB EPD	NR.1 NR.5	LU.O.5 CF.I.9	L1M.4 NCRE.4 NCRE.18	COMPLETED activity for the year; this is an ongoing effort.
4. Assist local governments with development and adoption, as needed, of DNR Part V Environmental Planning Standards.	Planning	2015-2019	Local Gov'ts KAB EPD	\$40,000	Local Gov'ts KAB EPD	NR.1	LU.O.5	L2M.1 NCRE.1	POSTPONED surveyed communities 2014; will assist with <u>adoption</u> 2015

5. Market local products to other parts of the state through programs such as Georgia Made, Georgia Grown.	Planning	2015 – 2019	RVRC COC Dev Auth GDEcD USDA	\$12,000 \$1350	Member Dues USDA COC Dev Auth GDEcD USDA	NR.7	ED.O.9 I.O.5		COMPLETED activity for the year; this is an ongoing effort.
6. Support the development of value added processing industries, farmer's markets and neighborhood groceries supplied by local farmers to provide fresh food in the region.	Planning	2015-2019	RVRC GDAg GDEcD Local HD USDA	\$50,000	Member Dues GDAg GDEcD DCA USDA	NR.7	CF.I.11 LU.O.4 ED.O.9		COMPLETED activity for the year; this is an ongoing effort.
7. Develop ordinances to protect the Chattahoochee and Flint River corridors for proper land use, and implement/enforce the Flint River Drought Protection Act, Flint River Basin Water Development and Conservation Plan, the Georgia Stormwater Management Manual, and Tier 1-4 non-farm water and agricultural conservation practices.	Planning	2016	RVRC Local Gov'ts ACOE Water Councils EPD GDAg GA Conserv TPL	\$50,000	Member Dues Local Gov'ts ACOE EPD GDAg GA Conserv TPL	NR.5 NR.6	LU.O.4 LU.I.15 I.I.1		POSTPONED lack of staff and financial resources.

8. Support the development of Green Belts along the Flint and Chattahoochee Rivers.	Planning	2015-2019	RVRC Local Gov'ts ACOE DNR GA Conserv TPL	\$40,000	Member Dues Local Gov'ts ACOE DNR GA Conserv TPL	NR.5 NR.6	LU.O.10 I.O.2		POSTPONED lack of staff and financial resources.
9. Support and promote activities and actions that maintain the navigation of the Chattahoochee River from south Columbus to the Florida state line.	Review	2015-2019	RVRC ACOE GDOT RWS	\$30,000	Member Dues ACOE GDOT	NR.8	LU.I.19		COMPLETED activity for the year; this is an ongoing effort.
10. Identify and assess non-point stressors in watersheds with the objective to monitor and provide data and Best Management Practice strategies to local governments that will reduce sources of pollution.	Planning	2015 – 2019	RVRC Local Gov'ts EPD EPA	\$60,000	Member Dues Local Gov'ts EPD EPA	NR.4 NR.5 NR.8	LU.I.10 LU.I.16 LU.I.20 LU.I.21	CFE.21	COMPLETED activity for the year; this is an ongoing effort.
11. Investigate the feasibility of developing a wetland bank and conservation land program to increase stream buffers in perpetuity.	Planning	2015	RVRC Local Gov'ts DNR EPD GA Conserv TPL	\$60,000	Member Dues Local Gov'ts DNR EPD GA Conserv TPL	NR.1 NR.6 NR.8	H.O.7 LU.I.19 LU.O.4	LUE.11	POSTPONED lack of staff and financial resources.

12. Encourage studies to improve water resource management information, water return ratios for land application and septic systems, modeling scenarios under extreme conditions.	Review	2015-2019	RVRC Local Gov'ts Water Councils EPD	\$50,000	Member Dues Local Gov'ts EPD	NR.5	LU.I.16 LU.I.19- LU.I.21 I.I.2		POSTPONED current lack of local initiative
13. Evaluate storage options for flow augmentation in dry periods by considering direct pumping from aquifers, Aquifer Storage and Recovery, farm ponds and/or additional storage reservoirs.	Review	2015 – 2019	RVRC Local Gov'ts Water Councils EPD USDA	\$50,000	Member Dues Local Gov'ts EPD USDA	NR.5 NR.8	LU.O.8 LU.I.15 LU.I.18- LU.I.19I.I.2		UNDERWAY Pending completion of ASR study
14. Educate non-participating communities of the advantages of the National Flood Insurance Program and assist them with applications for enrollment and flood damage prevention ordinances.	Planning	2015-2019	RVRC Local Gov'ts USGS	\$30,000	Member Dues Local Gov'ts USGS	NR.6	CF.I.8	LUE.25	COMPLETED activity for the year; this is an ongoing effort.
15. Encourage all water providers to consider conservation-oriented rate structures at the time of refinancing or recapitalization.	Planning	2015-2019	RVRC GA RWA GEFA	\$20,000	Member Dues GEFA	NR.5 NR.8	I.I.1	CFE.4	COMPLETED activity for the year; this is an ongoing effort.

16. Encourage use of point discharges for wastewater treatment effluent disposal for major facilities (greater than one million gallons per day).	Review	2015-2019	RVRC Local Gov'ts Water Councils EPD	\$40,000	Member Dues Local Gov'ts EPD	NR.5 NR.8	LU.I.16 LU.I.20		POSTPONED no new developments during period
17. Increase education and outreach programs directed toward improving water quality.	Planning	2015-2019	RVRC Svc Providers Water Councils	\$20,000	Member Dues Svc Providers EPD	NR.3 NR.4 NR.5	LU.O.4		COMPLETED activity for the year; this is an ongoing effort.
18. Encourage interconnection of regional supply systems for reliability.	Planning	2015-2019	RVRC Local Gov'ts	\$20,000	Member Dues Local Gov'ts	NR.5 NR.8	I.I.8	L1M.3 ICE.4 ICE.6	COMPLETED activity for the year; this is an ongoing effort.
19. Encourage local providers to prepare drought contingency plans.	Review	2015-2019	RVRC Local Gov'ts	\$40,000	Member Dues Local Gov'ts EPD	NR.5 NR.8	LU.I.1 LU.I.15	ICE.4 ICE.11	COMPLETED activity for the year; this is an ongoing effort.
20. Utilize and improve upon reservoir release quantity and timing in the Chattahoochee River to maintain and/or improve water quality in the Chattahoochee River below the Columbus Planning Node.	Review	2015-2019	RVRC ACOE	\$50,000	Member Dues ACOE	NR.5 NR.8	LU.I.19		POSTPONED pending further water negotiations/study

Land Use

Vision Statement	The RVRC will employ both proven and modern planning techniques to encourage and facilitate sustainable development practices; compact development; strong traditional and alternative transportation options; housing choices for all citizens; green space protection/development; et al. These different elements will in turn work together to foster sustainable and healthy communities.
Guiding Principles	
LU. 1	Promote the development, adoption and implementation of land use regulations that will result in a fiscally responsible quality living environment.
LU. 2	Develop design guidelines and make available to local merchants, builders, etc.
LU. 3	Provide alternative transportation in new development and retrofit for alternative transportation in developed areas.
LU. 4	Update zoning ordinances to allow mixed uses and higher density development where appropriate.
LU.5	Encourage and create innovative design practices that preserve open space.
LU. 6	The River Valley Regional Commission will work to preserve the region’s cultural and historic resources and use these assets to develop and sustain the tourism industry.

Activity	Category	Time Frame	Responsible Party(ies) and Partners	Cost	Funding Source(s)	Guiding Principles Addressed	Issues / Opportunities Addressed	Performance Standard(s) Addressed	Accomplishments CY 2014
1. Provide zoning technical assistance by updating zoning ordinances to comply with current laws and to allow for more compact and mixed-use development.	Planning	2015 – 2019	RVRC Local Gov'ts DCA	\$40,000	Member Dues Local Gov'ts DCA	LU 1 LU.2 LU.4 LU.5	LU.I.5 LU.I.11 LU.O.11 LU.1.12	HE.9 HE.10 LUE.1- LUE.4 LUE.6 LUE.7 LUE.8 LUE.21	COMPLETED activity for the year; this is an ongoing effort.
2. Provide zoning administration technical assistance and training to local governments.	Planning	2015-2019	RVRC DCA CUIOG	\$40,000	Member Dues DCA	LU.1 LU.4	LU.I.12	LUE.7 LUE.8 LUE.21	POSTPONED prepared for training rescheduled for January
3. Develop recommended land use standards to be adopted by the local governments, to include but not be limited to subdivision regulations, sign ordinances and tree ordinances.	Planning	2015-2019	RVRC	\$20,000 per year	Member Dues	LU.1 LU.2 LU.4 LU.5	LU.I.11 T.I.4	LUE.1- LUE.12 NCRE.9 NCRE.15	UNDERWAY Schley zoning ordinance scheduled for adoption 2015
4. Host strategy/visioning workshops and/or leadership programs at the county level involving community stakeholders and the general public.	Planning	2015-2019	RVRC DCA	\$10,000	Membership Dues DCA	LU.1	LU.0.10	LUE.14	COMPLETED activity for the year; this is an ongoing effort.

5. Facilitate regional land banking	Planning	2015-2019	RVRC Local Gov'ts SWGAs United DCA	\$40,000	Member Dues Local Gov'ts DCA	LU.1	LU.I.6 H.O.7 H.I.4	EDE.22	COMPLETED activity for the year; this is an ongoing effort.
6. Work with communities to incorporate planning tools such as traditional neighborhoods, stream buffers, etc. into existing regulations.	Planning	2015-2019	RVRC Local Gov'ts DCA EPD	\$50,000	Member Dues Local Gov'ts DCA EPD	LU.1 LU.4 LU.5	LU.O.2 LU.O.3	HE.3 HE.9- HE.10 TE.1- TE.10 LUE.5 LUE.9- LUE.12 LUE.17- LUE.18 NCRE.1 NCRE.11- NCRE.13	COMPLETED activity for the year; this is an ongoing effort.
7. Encourage the use of resource management planning when siting new developments to protect resources (i.e. natural, agricultural, environmental, historic and cultural resources) from encroachment.	Planning	2015-2019	RVRC Local Gov'ts DCA DNR EPD	\$20,000	Member Dues Local Gov'ts DCA EPD	LU.1 LU.4 LU.6	LU.I.1 LU.I.2 LU.I.3 LU.O.5 LU.O.7 LU.O.9	L2M.1 CFE.21 LUE.17- LUE.18 LUE.8 NCRE.15	UNDERWAY Schley zoning ordinance scheduled for adoption 2015
8. Work with local governments to improve the quality of alternative transportation options, including sidewalks, trails, bike lanes, transit and promote their use.	Planning	2015-2019	RVRC Local Gov'ts DCA GDOT	\$40,000	Member Dues Local Gov'ts DCA GDOT	LU.3 LU.4	LU.O.10 T.I.12 LU.I.7	TE.1- TE.7 TE.10- TE.11	COMPLETED activity for the year; this is an ongoing effort.

9. Expand the Safe Routes to School program to encourage the development of safe walking environments for children.	Planning	2015-2019	RVRC Local Gov'ts Local BOE GDOT	\$20,000	Member Dues Local Gov'ts Local BOE GDOT	LU.3 LU.4	LU.I.13 T.I.1	TE.5 TE.3 TE.2	COMPLETED activity for the year; this is an ongoing effort.
10. Support marketing campaigns that promote bicycling and pedestrian activities and opportunities within the community, such as available trails and bike plans, and bike races and events.	Planning	2015-2019	RVRC Local Gov'ts GDOT	\$1,500	Member Dues Local Gov'ts GDOT Sponsors	LU.3	LU.I.13 LU.I.7	TE.6 TE.7 TE.2	COMPLETED activity for the year; this is an ongoing effort.
11. Ensure that infrastructure provides necessary accessibility for people with disabilities such as parking and ramps.	Review	2015-2019	RVRC Local Gov'ts DCA GDOT	\$10,000	Member Dues Local Gov'ts DCA GDOT	LU.1 LU.3	LU.0.7		COMPLETED activity for the year; this is an ongoing effort.
12. Promote development and assist with implementation of historic preservation ordinances and design guidelines; promote and facilitate historic resource inventories.	Planning	2015-2019	RVRC Local Gov'ts DNR DCA	\$30,000	Member Dues Local Gov'ts DNR DCA	LU.1 LU.2 LU.6	LU.I.3 LU.I.4	NCRE.5 NCRE.6 NCRE.7 NCRE.8	COMPLETED activity for the year; this is an ongoing effort.
13. Provide information and present programs educating the general public of the benefits of historic preservation.	Planning	2015-2019	RVRC DNR DCA	\$10,000	Member Dues DNR DCA	LU.1 LU.6	LU.0.6	NCRE.5 NCRE.6	COMPLETED activity for the year; this is an ongoing effort.

14. Assist interested parties with tax credits and other historic preservation incentive programs.	Planning	2015-2019	RVRC Local Gov'ts DNR DCA	\$10,000	Member Dues Local Gov'ts DNR DCA HUD	LU.6	LU.O.6 H.I.5	EDE.17 EDE.10	COMPLETED activity for the year; this is an ongoing effort.
15. Create an ongoing and active education program about historic and cultural resource conservation and protection for the public, local elected officials, developers, etc.	Planning	2015-2019	RVRC Local Gov'ts DNR DCA	\$15,000	Member Dues Local Gov'ts DNR DCA	LU.1 LU.6	LU.O.6	NCRE.5 NCRE.6	COMPLETED activity for the year; this is an ongoing effort.
16. Assist communities secure Better Hometown/Main Street designation and provide technical assistance to implement revitalization programs.	Planning	2015-2019	RVRC Local Gov'ts DNR DCA	\$15,000	Member Dues Local Gov'ts DNR DCA HUD DCA	LU.1 LU.2 LU.5 LU.6	LU.O.6 LU.O.7 ED.O.2 ED.O.13 CF.O.3 I.O.4 T.I.2	EDE.17	COMPLETED activity for the year; this is an ongoing effort.
17. Encourage communities in their efforts to obtain Certified Local Government designation; provide training and technical assistance to historic preservation commissions.	Planning	2015-2019	RVRC Local Gov'ts DNR DCA	\$15,000	Member Dues Local Gov'ts DNR	LU.1 LU.6	LU.O.6		COMPLETED activity for the year; this is an ongoing effort.

18. Encourage conservation of the Old Federal Road	Planning	2015-2019	RVRC Local Gov'ts DNR DCA	\$15,000	Member Dues Local Gov'ts DNR DCA	LU.1 LU.6	LU.O.6	NCRE.5 NCRE.6	COMPLETED activity for the year; this is an ongoing effort.

Housing and Neighborhood Development

Vision Statement	The RVRC will promote development of sustainable neighborhoods that provide a variety of housing choices, parks, green space, schools and retail opportunities interconnected with a well-developed traditional and alternative transportation infrastructure.
Guiding Principles	
H. 1	Educate residents on home ownership. Also create, adopt and regularly update an affordable housing strategy that examines the tools and mechanisms to facilitate affordable housing. The strategy should be developed in partnership with local citizens and developers, and should be implemented and monitored.
H. 2	Promote a higher density and range of housing choices and a variety of dwelling types in all neighborhoods that have appropriate infrastructure.
H. 3	Develop in areas already served by municipal or county utilities and streets.
H. 4	Change zoning ordinances to accommodate loft living and mother-in-law suites.
H. 5	Work with other counties and cities in the region to implement residential code enforcement including health and safety standards for manufactured homes.
H. 6	Tax manufactured housing as real property where appropriate.
H. 7	Utilize federal, state and non-profit rehabilitation loan and grant assistance programs for maintenance assistance, home equity conversion mortgage programs, shared housing programs and smaller affordable low and moderate income housing units to meet housing challenges.
H. 8	Work with state agencies, federal agencies, and local governments to help preserve existing housing stock and promote the development of quality affordable housing in the region by seeking local, state and federal funding.

Activity	Category	Time Frame	Responsible Party(ies) and Partners	Cost	Funding Source(s)	Guiding Principles Addressed	Issues / Opportunities Addressed	Performance Standard(s) Addressed	Accomplishments CY 2014
1. Promote intergovernmental agreements between governments that have existing code enforcement staff and those that do not.	Planning	2015-2019	RVRC Local Gov'ts	\$5,000	Member Dues Local Gov'ts	H.5	I.I.8 LU.I.12 H.I.2	ICE.7	COMPLETED activity for the year; this is an ongoing effort.
2. Develop a general maintenance program for the Region's existing housing stock coordinating with community outreach and volunteer organizations targeting at-need populations.	Planning	2015-2019	RVRC Local Gov'ts DCA USDA GICH SWGA United Neighbor Works Habitat House of Heroes Fuller Center	\$40,000	Member Dues Local Gov'ts DCA USDASWGA United, Neighbor Works, Habitat, House of Heroes, Fuller Center	H.1 H.5 H.7	H.O.6 H.I.5	HE.4 HE.6	COMPLETED activity for the year; this is an ongoing effort.

<p>3. Support and continue to partner with ROSS Elderly/Persons which is the Resident Opportunities for Self-Sufficiency program. The program promotes our mission for self-sufficiency and independence by allowing people to remain in their home and age in place.</p>	<p>Planning</p>	<p>2015-2019</p>	<p>RVRC Local Gov'ts DCA DHS USDA GICH SWGA United Neighbor Works Habitat House of Heroes Fuller Ctr</p>	<p>\$20,000</p>	<p>Member Dues Local Gov'ts DCA DHS USDA SWGA United Neighbor Works Habitat House of Heroes Fuller Ctr</p>	<p>H.1 H.2 H.3 H.4 H.7 H.8</p>	<p>H.I.5 H.I.6 CF.I.7</p>	<p>HE.6</p>	<p>COMPLETED activity for the year; this is an ongoing effort.</p>

Transportation and Infrastructure

Vision Statement	By encouraging proper maintenance and efficient expansion of existing transportation infrastructure and development of alternative transportation options, the RVRC will promote a varied and versatile transportation system within communities and the region.
Guiding Principles	
T. 1	Concentrate activities where possible. Encourage pedestrian and transit travel by creating ‘nodes’ of high-density, mixed development that are linked by convenient transit service. Retain strong downtowns and CBD’s by concentrating commercial activities in these areas.
T. 2	Encourage shared parking
T. 3	Create a network of well-connected lots, blocks streets and paths. Keep streets narrow and use traffic calming measures to minimize vehicle speeds.
T. 4	Participate in and support the regional transit system.
T. 5	Identify potential transportation programs to meet public transportation needs.
T. 6	Work with local governments, state agencies and federal agencies to implement TIA and other programs to improve the transportation network in the region.
T. 7	Assist local government’s efforts with RC staff support, including GIS support, to receive state and federal funding to provide and maintain transportation and facility infrastructure capable of meeting community needs.
T. 8	Promote initiatives aimed at the development and implementation of alternative transportation options as a means of increasing connectivity, walkability, bike-ability and health.
T. 9	Work with local telecommunication provider to identify telecommunication issues and enhance the level of telecommunication services within the Region.
T. 10	Provide alternative transportation in new development and retrofit transportation infrastructure in existing developed areas.

Activity	Category	Time Frame	Responsible Party(ies) and Partners	Cost	Funding Source(s)	Guiding Principles Addressed	Issues / Opportunities Addressed	Performance Standard(s) Addressed	Accomplishments CY 2014
1. Inventory and map all available land and buildings to evaluate possible infill and redevelopment opportunities within the region. 12. Identify and address telecommunications deficiencies in the region.	Planning	2015-2019	RVRC Local Gov'ts SWGA United DCA	\$30,000	Member Dues Local Gov'ts SWGA United DCA	T.7 T.9	CF.I.2 ED.O.7 ED.I.10	L1M.6	COMPLETED

Economic Development

Vision Statement	Through implementation of a variety of comprehensive and diverse economic development initiatives, and coordinating the efforts between different sectors, such as agriculture, industry, tourism and retail, the RVRC will support the creation of a stable economic base for the region, creating communities that are self-sufficient and equitable.
Guiding Principles	
ED. 1	Assist local governments and business efforts with federal, state financial aid and staff assistance to diversify and coordinate the region’s economic base and provide employment opportunities for regional residents. Grow the RVRC Revolving Loan Fund.
ED. 2	Partner with representatives and leverage resources from military installations, both within the Region and surrounding the Region, including Fort Benning in Columbus, the Marine Corps Logistics Base in Albany, and Robins Air Force Base, in Warner Robins, to study and plan for the impact on future growth patterns and economic development opportunities within the Region.
ED. 3	Support the development and marketing of tourism initiatives, such as U. S. Highway 27 Association, and campaigns within the Region to capitalize on the many strengths and assets found within the Region.
ED. 4	Utilize state, regional and local staff to promote the development and rehabilitation of downtowns and neighborhoods. Market downtown and neighborhood redevelopment campaigns and initiatives within the River Valley region.
Ed. 5	Capitalize on the rich agricultural and natural resources of the region to enhance agri-tourism by marketing said resources and developing agri-tourism ordinances.

Activity	Category	Time Frame	Responsible Party(ies) and Partners	Cost	Funding Source(s)	Guiding Principles Addressed	Issues / Opportunities Addressed	Performance Standard(s) Addressed	Accomplishments CY 2014
1. Support the economic importance of the in-land port in Cordele by promoting multi-modal transportation within the region as a way to import and export manufacturing goods and stimulate growth.	Planning	2015-2019	RVRC Local Gov'ts SWGA United DCA USDA GDOT	\$50,000	Member Dues Local Gov'ts SWGA United DCA USDA GDOT	ED.1	T.I.7 T.I.8 T.I.9 ED.O.2 ED.I.11	EDE.22	COMPLETED activity for the year; this is an ongoing effort.
2. Coordinate efforts with local broadband providers and cities/counties/local organizations to identify and address key issues.	Planning	2015-2019	RVRC Local Gov'ts DCA GTA	\$30,000	Member Dues Local Gov'ts DCA GTA	ED.6 T.10	I.I.7 ED.O.7 ED.O.11		COMPLETED
3. Identify communities in the Region with current access to broadband services and refer back to Georgia Technology Authority.	Planning	2015-2019	RVRC Local Gov'ts DCA GTA	\$15,000	Member Dues Local Gov'ts DCA GTA	ED.6	ED.O.7		COMPLETED
4. Coordinate in-land port activities with barge traffic along the Chattahoochee River as another way to transport goods throughout the Region.	Review	2015-2019	RVRC Local Gov'ts SWGA United GDOT	\$40,000	Member Dues Local Gov'ts SWGA United GDOT	ED.1	T.I.7 T.I.8		POSTPONED pending market demand

22. Support the Georgia Made, Georgia Grown initiative and assist local businesses pursuing designation.	Planning	2015-2019	RVRC Dev Auth GDEcD GDAg USDA	\$20,000	Member Dues Dev Auth GDEcD GDAg USDA	ED.3 ED.5	ED.O.9	EDE.3	COMPLETED activity for the year; this is an ongoing effort.

Education

Vision Statement

By fostering programs and initiatives that aim to increase educational opportunities within the region, the RVRC will promote increased educational attainment among citizens of the region, which will lead to a stronger workforce, greater economic development opportunities, and opportunities to attract new citizens to the region, resulting in more sustainable and healthy communities.

Guiding Principles

E. 1

Work with local and school officials, colleges, chambers of commerce, etc. to develop programs/activities to elevate the region's educational attainment to a level comparable with the State of Georgia.

E. 2

Participate with agencies to develop workforce training activities.

Activity	Category	Time Frame	Responsible Party(ies) and Partners	Cost	Funding Source(s)	Guiding Principles Addressed	Issues / Opportunities Addressed	Performance Standard(s) Addressed	Accomplishments CY 2014
1. Coordinate with Family Connections and other local partners to raise high school graduation rates and prevent later social problems by improving basic literacy levels of elementary students through home visits and after school programs.	Review	2015-2019	RVRC Fam Conn Local BOE WIA Bd	\$20,000	Member Dues Fam Conn Local BOE GOWD	E.1	P.I.5 I.O.3 ED.O.3 ED.I.2	EDE.1 EDE.11 EDE.12	COMPLETED activity for the year; this is an ongoing effort.
2. Coordinate with local technical colleges to create technical training programs and dual enrollment programs within the Region's high schools.	Review	2015-2019	RVRC Local BOE Local Colleges	\$40,000	Member Dues Local BOE Local Colleges and Universities GOWD	E.1	I.O.5 ED.I.2	EDE.21	COMPLETED activity for the year; this is an ongoing effort.
3. Support local community's efforts to attain designation as Certified Literate Community.	Review	2015-2019		\$15,000	Member Dues Local BOE	E.1	ED.I.1 ED.I.2	EDE.11 EDE.12	COMPLETED activity for the year; this is an ongoing effort.

4. Provide funding to expose students to cultural and fine art subjects such as art, music, literature, and religion through partnerships with cultural organizations.	Planning	2015-2019	Local BOE Local Colleges and Universities	\$20,000	Member Dues Local BOE Local Colleges and Universities	E.1	ED.I.1 P.I.5		COMPLETED activity for the year; this is an ongoing effort.
5. Work with local 4-H Programs and Chambers of Commerce to encourage the development of Youth Leadership Programs.	Review	2015-2019	RVRC COC Ext Svc	\$15,000	Member Dues COC Ext Svc	E.1	ED.I.1 ED.I.2 ED.O.3	ICE.10	COMPLETED activity for the year; this is an ongoing effort.

AREAS REQUIRING SPECIAL ATTENTION DESCRIPTIONS

The Areas Requiring Special Attention on the Future Development Map includes:

- Possible Fort Benning Expansion Area
- Areas of Disinvestment
- Areas of Resources Potentially Impacted by Development
- Potential Redevelopment/ Areas of Infill
- Areas of Development
- Conservation and other RIR Mapped Resources (See Regional Development Pattern Narrative)

The Defining Narrative for each Area Requiring Special Attention Includes:

- Area Description
- Quality Community Objectives to be Pursued
- Recommended Development Patterns
- Types of Land Uses
- Steps to Implementation

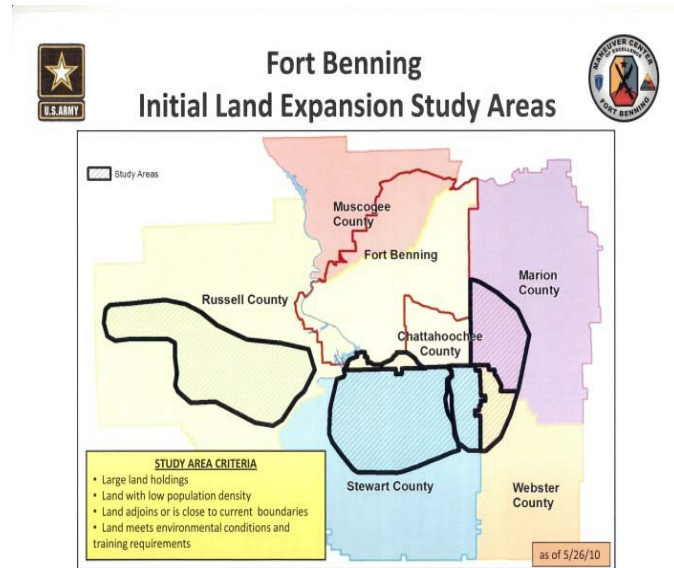

As regional conditions change The River Valley Regional Commission will update the Regional Plan as needed to describe and depict the most logical long range development patterns for the River Valley Region. Factors affecting changes to the Future Development Map may include but are not limited to:

- Additions or deletions of Regionally Important Resources
- Changes to Areas Requiring Special Attention
- Developments causing large scale land use shifts
- Local/Regional Transportation Plans,
- County/City Comprehensive Plan Updates
- Other Regional, State or Local Plans or studies
- Natural or manmade disasters

2014 Update of Areas Requiring Special Attention (2015-2019)

Proposed Fort Benning Expansion Area

It is important to note that Fort Benning is considering a possible expansion of up to 216,365 acres in Stewart, Marion, and Webster, Counties. The expansion could also occur in Russell County, Alabama. Within these counties the number of acres proposed to be included in the expansion varies, though the acreage proposed to be added from Stewart County is the greatest, at 123,003 acres. In both Chattahoochee and Marion Counties the proposed acreage to be acquired is very close at 38,034 and 38,021, respectively. The land proposed to be included in the expansion from Webster County is considerably less at 17,307 acres.

No one knows when or if the Fort Benning base expansion will take place. However it is prudent to review future development in the proposed Fort Benning Expansion Area for consistency with base expansion compatibility and the impact or affect it will have on the local tax base of River Valley's communities.

Update: Although the prospect of additional physical expansion of Fort Benning remains in limbo, there is discussion that the base may lose troops in the Army 2020 Force Reduction Structure Realignment. The Supplemental Programmatic Environmental Assessment (SPEA) recommends a reduction in active duty, civilian and defense contractor personnel. The assessment calls for 13,858 fewer personnel/jobs, resulting in the loss of 27,111 residents when family members are included. The overall annual economic loss to the region is estimated to be approximately \$1.3 billion. This loss of population and revenue will be devastating to the region in terms of economic development and land use. A final decision on SPEA has not been made as of February, 2015.

Areas of Resources Potentially Impacted by Development

Areas of resources potentially impacted by development include growth areas that could encroach upon natural or cultural/historic resources, such as a state park, historic structure, river or groundwater recharge areas.

Update: Two large-scale development projects continue. Groundbreaking for the ±\$25 million, 475 acre, multi-faceted motorsports complex on Americus' north city limits was delayed until 2015. Navigation of a lengthy, rigorous, regulatory process and the complexities of investment financing have been much more time-consuming than envisioned, but the developer continues to persevere. A 2013 agreement between Cordele Intermodal Services and the Georgia Ports

2014 Update of Areas Requiring Special Attention (2015-2019)

Authority enhanced the facility's service capabilities. Operating initially from a 40-acre tract in Cordele's industrial park with 1,200 adjoining acres available for expansion, the volume of industrial freight containers through the state's only (dry) inland port continues to increase.

Neither of these two developments will have significant, adverse impact on known natural or cultural/historic resources (state park, historic structure, or river). Both will; however, affect prime farmland and jurisdictional wetlands. Physical development of virtually any significant size in either of the affected counties will entail conversion of at least some prime farmland acreage or other agricultural land of statewide importance because of the prevalence of the natural resource. Impacts on agricultural lands will be mitigated somewhat by the fact that both sites are extensions of developed areas rather than "leap-frog" developments into pristine areas. In accordance with applicable law and regulations impacts on jurisdictional wetlands, another natural resource common across the region and present on both sites, will also be mitigated.

River Valley Regional Commission communities continue to employ and enhance their land use regulations to guide development and mitigate potentially adverse impacts of development at the jurisdictional level. Schley County is in the process of developing and adopting a zoning ordinance for the first time and the Town of Pine Mountain is completely reworking their zoning ordinance to enhance this development tool.

Areas of Disinvestment

BEFORE

Areas with significant levels of poverty, and/or unemployment that is substantially higher than average levels for the region as a whole.

AFTER

Most communities throughout the state of Georgia have some areas of disinvestment, or areas in need of improvement, and the River Valley region is no exception.

However, these areas also provide opportunities for redevelopment and reinvestment in the community. Both residential and commercial redevelopment opportunities exist in the region. In terms of commercial redevelopment, many of the cities in the region have vacant retail space available in their traditional downtown areas. Reinvestment in these buildings could lead to new residential options, such as loft apartments/condos. In addition to available commercial space in downtowns, many communities also have greyfields that could also be redeveloped or improved. These commercial buildings that have been vacant or abandoned have a negative

2014 Update of Areas Requiring Special Attention (2015-2019)

impact on the community as a whole. Reinvestment in these spaces would be a positive economic impact and help to improve the overall aesthetics of the community.

UPDATE: Every incorporated area in the region has, or is itself, a pocket of poverty and/or unemployment. The economy in the smaller of these communities is too depressed and return on investment typically so marginal the local private sector cannot reverse these economic conditions unilaterally. In the past couple years Americus, Butler, Cordele, Cuthbert, Richland and Vienna adopted urban redevelopment plans in conformance with the Georgia Urban Redevelopment Law. This tool can be used to develop stronger public initiatives and private sector incentives in commercial and residential areas officially designated as “slum” areas than is possible using only conventional redevelopment tools. These six cities applied the new tools to commercial and residential redevelopment activities in 2014. Columbus voters with a near 60% approval rate passed a referendum on Redevelopment Districts and Harris County is using Planned Unit Development standards to facilitate new commercial and residential development.

An even stronger redevelopment tool is gradually gaining momentum. Americus and Sumter County have appointed charter members to a land bank authority; Cordele and Crisp County are in serious discussions, the city having already resolved to create a joint authority. Other communities have inquired about this redevelopment tool.

In addition, each year there are fifteen-twenty applications submitted from the region for highly competitive Community Development Block Grants (CDBG). These funds are typically directed into areas with high levels of disinvestment and are designed to benefit low and moderate-income residents. Current CDBG projects in Cordele and Cuthbert are being implemented in previously designated urban redevelopment areas.

Potential Redevelopment / Areas of Infill

Areas in need of redevelopment and/or significant improvements to aesthetics or attractiveness which include a significant amount of vacant sites, vacant buildings/houses and environmentally contaminated commercial/industrial sites.

Redevelopment efforts will be most prevalent within the existing traditional neighborhoods that surround downtowns. In many communities, the condition of these properties varies from pristine to dilapidated. However, assistance and support for the renovation of these historic structures can be found at both the state and national level. Many communities offer tax freezes, job tax credits, and other incentives to encourage redevelopment within targeted areas.

2014 Update of Areas Requiring Special Attention (2015-2019)

In addition to commercial areas, older homes that are in disrepair could be restored or replaced with compatible new construction that would maintain the historic character of the many cities within the region.

There are many infill development and/or redevelopment opportunities throughout the River Valley Region. However, due to the rural nature of the region, most of these will occur in the developed cities. While most re-development will occur in city centers and downtowns, as you move away from the city core, potential for infill development increases. Due to more sprawling and more widespread development patterns, developers will have the opportunity to build within these areas to increase density and create more pedestrian-oriented development. These areas could include strip commercial development, as well as housing infill opportunities in newer subdivisions, or as older multi-family structures need renovation or replacement.

Other areas of potential infill development include brownfield sites located throughout the region. In general terms, brownfields are abandoned or underused industrial or commercial

2014 Update of Areas Requiring Special Attention (2015-2019)

properties where redevelopment is complicated by actual or perceived environmental contamination. Some examples of brownfields include abandoned gas stations and unused former manufacturing plants. Redeveloping brownfields can restore property to productive use, increase property values, improve public health and the environment, utilize existing public infrastructure, and increase job opportunities and local tax revenues. Throughout the River Valley region, there are a number of potential brownfields, mostly from abandoned gas stations. As these properties are often in prime locations, they provide excellent candidates for highly visible redevelopment opportunities within the community.

UPDATE: The region's largest example of redevelopment for 2014 was Darton State College in Cordele. A three-story, 60,000 square foot building was constructed on half of one of the deteriorated city blocks in Cordele's commercial historic downtown. The ribbon-cutting ceremony in January, 2015, capped-off the previous year of construction facilitated by the cooperative efforts of both the city and county. Columbus is the region's other best example of redevelopment/infill with numerous economic spin-offs anchored by one of the state's major recreational venues. The economic and dynamic success of Whitewater Columbus has attracted numerous commercial enterprises, retail and service, in Columbus' large historic commercial area. This activity is hastening Columbus State University's development of an expanded off-campus footprint in this area.

On a smaller scale two downtown buildings in Richland have been converted for use to make and store a single estate Georgia rum, Richland Rum, and an old school building in the Omaha community has been converted into a brewery.

Area of Development

Areas where rapid development or changes of land uses are likely to occur, especially where the pace of development has and/or may outpace the availability of community facilities and services, including transportation.

While the River Valley region is predominately rural, there are several counties that have recently experienced significant growth and development, and are expected to continue to grow in the near future. For example, both Dooly and Crisp County have seen growth related to the business expansion along I-75. The in-land port in Cordele will result in tremendous economic development opportunities for that portion of the region, and as a result, will attract new business and residents to the area. On the western side of the region, the city of Columbus and its neighboring jurisdictions have seen growth related to the, as troops from the Armor School at

2014 Update of Areas Requiring Special Attention (2015-2019)

Fort Knox are relocated to Fort Benning. The preparations made for the BRAC process have resulted in new jobs and an estimated 23,000 or more new residents in the Columbus area.

UPDATE: In general, areas identified as most likely to attract development, concentrated along the jurisdictional boundaries of towns and cities, saw little if any activity during 2014. The recession that began in 2007/2008 crept along making it even more difficult for an economically disadvantaged region to develop positive momentum. Development of the Americus Motorsports site has been delayed, and while some improvements have been made at the inland port site in Cordele the adjoining, unincorporated area may still be a few years developing. In both cases; however, the scale and complexity of development had a greater affect on the slow rate of progress than the weak economy. Virtually all such areas are located on the periphery of incorporated areas.

Construction was underway on a Planned Unit Development off of Veteran's Parkway and Williams Road in the City of Columbus in 2014 and in early 2015 sewer is being extended into Harris County in order to serve another Planned Unit Development that will be located in Harris County off HWY 315.

Partnerships between neighboring communities and Fort Benning are essential to create efficiencies through economies of scale and to enhance the regional environment.

Quality Community Objectives Descriptions

#

Traditional Neighborhoods

Traditional neighborhoods typically follow development patterns common to the time period prior to World War II, which offers residents a variety of housing options. These neighborhoods are often located within easy walking distance of a community's downtown, town center, or other commercial areas, providing easy access to commercial and recreational activities. The resulting community is one that is pedestrian friendly and allows residents to easily work and live within a compact environment.

#

2014 Update of Areas Requiring Special Attention (2015-2019)

Infill Development

Infill development is an effective revitalization strategy for communities to maximize underutilized buildings, vacant lots, and brownfield/greyfield sites within the community. This strategy takes advantage of existing infrastructure and community facilities such as streets, sewer, and other utilities.

#

Sense of Place

A community's sense of place is created by its unique combination of natural setting, architecture, history, and cultural resources. Local governments can work to ensure that the character and sense of place of their community are preserved through a variety of different channels, such as the creation of historic districts, the development of design guidelines, and open space preservation ordinances.

Transportation Alternatives

Transportation alternatives refer to a variety of means of traveling within a community, as opposed to solely using automobiles. These alternatives include walking; cycling; using buses, trains or

Evaluation and Monitoring

Preliminary meetings were scheduled after adoption of the Regional Agenda with elected officials and chief administrators/managers of each of the region's fifty-one jurisdictions. Supplementing local plan assessment meetings held the first year of plan implementation, similar meetings were held in 2014 with Clay County/Bluffton, Ft Gaines; Macon County/Ideal, Marshallville, Montezuma and Oglethorpe; Marion County/Buena Vista; Randolph County/Cuthbert and Shellman; Schley County/Ellaville; Andersonville; De Soto; Leslie; and Plains.

A survey of the region's fifty-one jurisdictions was performed to assess the existing level of local government compliance with minimum performance standards established in the regional plan. In response to survey findings Commission staff contacted jurisdictions where it was not clear all local officials had received the level of training stipulated in the minimum performance standards (and state law) and encouraged the necessary local follow-up.

The survey revealed most jurisdictions are lacking ordinances providing for protection of groundwater recharge areas and/or wetlands; two of the twenty-four designated Regionally Important Resources. State law had previously prescribed protection of both of these natural resources, and Commission staff prepared sample ordinances for presentation to local governments early in 2015. For the eighteen jurisdictions that are either host to, or within one mile of, any of the other twenty-two Regionally Important Resources and do not currently have protective measures, the Commission is packaging recommendations for local government consideration. Commission staff will request to be notified immediately after local governments have taken action(s) addressing these standards.

The Commission will schedule reviews with each jurisdiction commensurate to the nature and scale of the local government compliance effort. Checklists and timelines used in the preliminary meetings to identify appropriate policies and ordinances will be used to assess progress made toward achieving the minimum performance standards. The Commission will document review findings with possible recommendations in a written communication to the local government. In addition, local government progress will be an agenda item at biennial plan assessment meetings requested by the Commission.

The Georgia Department of Community Affairs 2009 Standards and Procedures for Regional Planning require the Commission to ensure the implementation of the Regional Agenda. As part of the annual update of the regional work program staff surveyed developments that occurred during the preceding year and local government responses to determine whether the regional vision is being implemented effectively, and if it is having the desired impact on regional development patterns. Based on the results of this survey RVRC staff will identify any impediments to implementation, possible solutions and whether any amendments to the regional plan are needed. Staff is in regular contact with the majority of "responsible parties"

2014 Evaluation and Monitoring Report (2015-2019)

identified in the plan, and at least occasional contact with the balance. These frequent communications keep the staff abreast of developments across the sixteen counties, many of which are reported at monthly meetings of the River Valley Regional Council.

Review of the work program was solicited directly via e-mail from RC appointees, local governments and other stakeholders as part of the annual report of accomplishments/update process. A public hearing announced via newspaper publication was held February 19, 2015, at the Commission's Americus office for the purpose of receiving input and comment from the general public. Input/comments received from the RC, local governments, other stakeholders and the general public were presented at the February 25 meeting of the Regional Commission for use evaluating and gauging the effectiveness of plan implementation. Monitoring and evaluation of plan effectiveness was performed mindful of the fact that full and satisfactory implementation of the regional plan requires efforts of not only the Regional Commission and member local governments, but supportive activities of numerous other "responsible parties" external to and wholly independent of the River Valley Regional Commission. The unanimous vote of the Regional Council on February 25 was that good and acceptable progress is being made with plan implementation, and that the update should be submitted for state level review.

Regional Priorities List (2015-2019)

Please list the top priorities in your region using the following guidance:

- a) Identify each priority by:
 1. Drawing from the priorities identified in local plans; and
 2. Drawing from the priorities identified in the regional plan.
- b) Consider the following when identifying priorities:
 1. Be important enough to warrant the Governor’s attention (and the attention of the state agency heads and other officials who serve on the Commission on Regional Planning).
 2. Be current, meaning that the issue hasn’t yet been addressed.
 3. Be actionable, in that the state agencies can do something to address or clarify the issue.
- c) For each priority, include the following information:
 1. Recommended action plan for addressing each priority.
 2. Indication of what assistance is needed from the state to address each priority.
 3. Possible impediments that will need to be overcome for each priority.

Regional Commission Name: River Valley

Priority or Issue (listed here, not prioritized)	Source (e.g., regional plan, shared priorities from local plans, etc.)	Suggestions for Addressing this Priority or Issue (e.g., state assistance needed, collaboration opportunities, etc.)
Lack of Vibrant Economy	Regional and Local	Expanded and more flexible funding for sustainable development
River Corridor Protection/Green Belts Chattahoochee and Flint	Regional	Restoration of state tax credit for conservation preservation
Maintenance of Utility Infrastructure (TIA/TSPLOST is Helping with Roadways)	Regional and Local	“Incentivize” capital budgeting; prompt or incentivize GPS capture of infrastructure through utility loans and grants
Code Enforcement (for Public Health, Nuisances and Aesthetics)	Regional and Local	GMA/ACCG promote community pride (referencing land bank as means to resolve “inaccessible” code violators)
“Wall-To-Wall” Internet Service	Regional and Local	Link this with development of the micro-economy/cottage industries
Raise Educational Attainment Levels	Regional and Local	Increase coordination between high schools (HS) and technical colleges (TC) to reduce HS dropout; develop a TC presence <u>in</u> every county

Incentivize Participation in Leadership Development Programs	Regional and Local	Promote DCA's Regional Economic Development Leadership with GMA/ACCG promotion
Local Trail Development with Regional Interconnectivity	Regional and Local	Additional state/federal transportation funding assistance
